"New Kind Of Lover"

She's made of shadows
That live at night
Ooooh I dream of things

No one would dare
Last night she came to me for a second time
Through the walls, suspended in the air!

(She's) a new kind of lover
She makes love like no other
She came to me from a long time ago
(She's) a new kind of lover
She makes love like no other

I don't want to know that she's a ghost
She knows my secrets
When we're alone
She plays them out

While I'm asleep
Last night she woke me up with a touch so cold
Can it be she's playing me for keeps

I don't wanna know
Please don't let me know
