Can't stop tossing and turning at night  
It gets harder each day fighting with this feeling inside  
You can swear that you love me  
By every star in the sky

But when you're close to me  
You get that look in your eyes  
A burning feeling - You just can't disguise

Words are not enough  
To make me feel like a man in love  
Words are not enough  
To make me feel like a man in love

We need each other  
It's easy to see  
You know I'm shakin' all over  
Thinkin' how good this could be

You can tell me you need me  
And you can tell me you're mine  
But when you're in my arms  
The world stops spinnin and we lose  
All track of time

You can tell me you need me  
And you can tell me you're mine  
But when you're in my arms  
The world stops spinnin' and we lose  
All track of time
