"A Murder Machine"

Visit "[A Murder Machine](#)" on MotoLyrics.com

(Verse)

Summer Nights

We thought it would last forever

And we thought we had the world on our shoulders

Free as a bird

That's how we dream't of the end

But never knew that we were all just part of a plan

In time we'll find that we were not enough

For the one's with their heads living high above

(Pre Chorus)

We made our way for the sun

But now we're freezing cold

If life had only just begun

Why do we feel so old ?

For at the end of the day

We're all just little paintings

waiting to be erased

(Chorus)

For time is a murder machine

It kills you when you're asleep

And I won't deny

I'm like a thief on the run

I even sleep with a gun

I see the light but it's oh so far away

We've been running in circle's every single day

(Verse)

(They said)

Come along we've got a long way to go

Just write you're names in blood

And watch your stories unfold

We were young, immature

Got caught up in the bright lights

Sold our souls for a taste of the high life

In time we'll find that we were not enough

For the one's with their heads living high above

(Chorus)

For time is a murder machine

It kills you when you're asleep
And I won't deny
I'm like a thief on the run
I even sleep with a gun
I see the light but it's oh so far away
We've been running in circle's everyday
(Break)
(Bridge)
Waking up is just another mistake
They dragged us into a whirlwind
and corrupted our faith
Now we're six feet underneath the ground
And we're running ,and we're running out of

(Chorus)
Time is a murder machine
It kills you when you're asleep
And I won't deny
I'm like a thief on the run
I even sleep with a gun
I see the light but it's oh so far away
We've been running in circle's every single (2X)
(Verse)

Summer Nights
We thought it would last forever
And we thought we had the world on our shoulders
Free as a bird
That's how we dream't of the end
But never knew that we were all just part of a plan
In time we'll find that we were not enough
For the one's with their heads living high above
