I caught you lying again it's pretty easy if you know how  
to play  
So what you say we make it two out of three  
I heard you're dying again well what disease have you  
contracted today  
Just as long as you don't give it to me as you don't give  
it to me

You're waiting tables again and you're counting on a  
generous tip  
But then the tipper doesn't always come through  
You're in the gables again getting ready for a fabulous  
trip  
You'd better watch or it could happen to you

When the devil's minions take you down try to mark a  
path  
Something I can follow  
When the devil's minions hit the ground you can point  
and laugh  
Cause I won't let them swallow you down  
You're on the trestle again and your toes are hanging  
over the edge  
And your reflection's in the water below  
We'll have to wrestle again but there's a wager that I'm  
willing to hedge  
Cause you can bet I won't be letting you go

When the devil's minions take you down try to mark a  
path  
Something I can follow  
When the devil's minions hit the ground you can point  
and laugh  
Cause I won't let them swallow you down
