Two a.m., on a downtown street  
There on the corner, two strangers meet in the night  
And then until the daybreak they're gonna love  
And before the light a heart may break, there in the  
night

Look in the alleys, along the roads, it's there the losers  
stand  
There in the ring, they bide their time, hustling what  
they can  
They beg just to get  
That bottle in their hand

There in the night, somewhere in the night  
Oh, how they do, what they do  
Just to get through  
There in the night, in the night

Then on the street in the heart of town  
A lady in black, she turns around, in the night, yeah  
She stares at the man in the Cadillac  
He drives by but he'll be back for the night, there in the  
night

See the guy along the road, who can he be?  
Wait awhile, he'll turn around  
See the man is me  
'Cause when I sing my dreams, my dreams will set me  
free

There in the night, somewhere in the night  
Oh, how they do what they do  
Just to get through  
There in the night, in the night

When the sun goes down  
And the light grows dim  
Slowly moving for the kill

If you would come back again  
It would take away this pain  
But I don't know if you ever will

Love in the night  
Would feel so right  
So love me tonight, in the night

Into the night, it feels so right  
How could you do what you do?  
Yes you, only you  
There in , there in the night , somewhere in the night
