Well, I'm staring down from Venus in the dead of night
My mind is flashing back to when the world was right
Your guns and bombs keep rolling off the assembly
line
And people keep on starving and you think that's just
fine

With my head in the clouds, it's easy to see
You better live together peacefully
You know the world is still your family tree
So keep it straight, remember me
It's not too late, remember me

Well, I'm floating and spinning
And flying above the earth's atmosphere
And I've got a few things to say you may not wanna
hear
Now there's just enough time to repair it
As long as you don't let it get you down
But there's not a whole lot you can do for yourself
When you're buried underground

With my head in the clouds, it's easy to see
We better live together peacefully
You know the world is still your family tree
So keep it straight, remember me
It's not too late, remember me

There's so much yelling and screaming and lying and
cheating
And robbing and preaching that we've heard it all, yeah
We need some loving and caring and kissing and
hugging
And helping each other or we're gonna fall
And that'll be all, remember me

With my head in the clouds, it's easy to see
You better live together peacefully
You know the world is still your family tree
So keep it straight, remember me
It's not too late, remember me
Just keep it straight, remember me

It's not too late, remember me

Ho, remember me

Come on, remember me, yeah

Remember me

Come on, remember me

Yeah, yeah, yeah, yeah
