Juliet
A girl you never should have met
Oh, Juliet
She acted like she's never seen your face before
It's not funny honey when you try
and she's not even willing to learn
It's not funny honey when you're only after money
Could you ever try to earn?

[Chorus]
So, Howzat!
What's up a bright and clear new summer day
Well, Howzat!
Wake up and breath the air and sail away
So, Howzat!
What's up now, don't you worry night and day
Always remember, don't you remember me? Yeah

Juliet,
how could she ever you forget
Oh, Juliet

She acted like she's never seen your face before
It's not funny honey when you try
and she's not even willing to learn
It's not funny honey when you're on your own
And the pages never turn

[Chorus]

Never meant to hurt you
But that's just the way it went
It's not my intention
pretending to be Heaven Saint
Juliet, what's up a bright and clear new summer day

[Chorus]

Juliet
