Oh darling can your sad eyes see.  
Just how much you really mean to me.  
Toss aside the past just let it be  
Where are you tonight.  
Oh baby do you understand.  
You make me want to be a better man.  
Yes I'll do anything I can.  
Where are you tonight.

[Chorus]

Lucy.  
Where Are You Tonight?  
Lucy. Where Are you Tonight?  
Yeah baby if i could take your pain.  
Wash it away throw it in the rain  
(I surely would)

But Nothin' ever stays the same.  
Where Are You Tonight.  
There's one thing i know for sure  
hearts are shattered & easy broken.  
When the light shines at your door.  
Do you open it does darkness win again.  
My Lucy i hope you'll find your way  
back to California again someday.  
No more lonely hearts we'll runaway  
but where are you tonight.

[Chorus]

Lucy  
Where Are You Tonight.  
Lucy. Where Are You Tonight.  
Lucy. Where Are you Tonight.  
I hope you find your way  
back to California someday.
