I'm looking at your photograph
And wishing you were here
I'd like to tell you a bedtime story
I'm tryin' to say
Everything will be alright
Hope to see you soon
And I don't mind the clouds above me

My Little Friend, you make my whole day shine
My Little Friend, you make my whole day shine

Everything lies ahead of you
I know you'll be just fine (you'll be fine, you'll be fine)
Some things may seem confusing, I understand
But what I feel for you is real
It's deep inside my heart
You'll be a part of me forever

My Little Friend, you make my whole day shine
(My Little Friend, you make my whole day shine)
My Little Friend, you make my whole day shine
(My Little Friend, you make my whole day shine)
My Little Friend, you make my whole day shine
(My Little Friend, you make my whole day shine)
My Little Friend, you make my whole day shine
(My Little Friend, you make my whole day shine)
My Little Friend, you make my whole day shine
(My Little Friend, you make my whole day shine)
My Little Friend, you make my whole day shine
(My Little Friend, you make my whole day shine)
