"Falling Down"

Visit "[Falling Down](#)" on MotoLyrics.com

I'll let go of my desire
And lose it all
To set this love on fire
How could I live
How could I know

We got no time can't you see
Falling down
We're falling head down
We're about to fall down

And waste no time
in discussions
I want to feel you
Come on, take me higher
How could I live
Knowing you're here
But without me

We got no time can't you see
Falling down
We're falling head down
A steep fall from high above
We got no time can't you see
Falling down
We're falling head down
We're about to fall down
