"In My Mind"

Visit "[In My Mind](#)" on MotoLyrics.com

Heal my whisper
I struggle for breath
Through haunted memories
I numb my senses
To erase this hell

Every kiss that you gave rotted
Every wound that you carved
Froze my tears

In my mind
I weave my own dreams
In my mind

The secret I inhaled
Has made my mind insane
A void in my mind
But you're here

Every kiss that you gave rotted
Every wound that you carved
Froze my tears

In my mind
I weave my own dreams
In my mind
I mourn your love
Lost and dying
