"World In Agony"

We belong here
To this slaughter
We belong here
To a world in agony

We drain our world of its dreams
We suck blood to quench our thirst
And die in comfort
The sun is fading as we pray
And hold the future in our hands
Our mother's rage is building up and will get us

We belong here
To this slaughter
We belong to
A world in agony
Hush hush hush, it's never enough
Hush hush hush

Our reign shall glare
Blame is our legacy
Our reign shall glare
Hush hush hush, it's never enough
Hush hush hush

We made our planet just a wreck
And we continue to forget
The ravage of our senseless race to nowhere
