"Do What I Do, Love Come Down"

I got a ring that wont stay true
... stop asking questions
Woman and a man gonna do what they do
Gonna do what they do
Wanna do what I do
One more ...
... clouds with the point of view
At least touch down and text us
I'm living fast but ... soon
As if too soon, I'm gonna do what I do.
Save it for you.

Love come down, love come down
Treat me right
Love come down, love come down
Treat me right
Love come down, love come down
Treat me right
Legal with heart will always find
Legal with heart will always find
Legal with heart will always find
Legal with heart will always find.

Love come down, love come down
Treat me right
Love come down, love come down
Treat me right
Coming around back to you.

If anyone should know, I'll find.
If anyone should know.

Thanks to jj.
