Woe our hope is gone  
The same in every city  
I see them drop like flies  
It's getting worse  
It's getting worse

Where is the sun?  
The clouds have blacked the light out  
The clock have lost the time  
And seconds become hours  
So if you were me  
Would you do all that it takes to breathe?

Through this sea  
Of fucking ash and debris  
Everything is dyiiiiiiiiing  
Everything is rotting away  
Everything is dyiiiiiiiiing  
Everything is falling apart  
And it's just the fuckin' start

What is the price to live till tomorrow  
When money's worthless and fame makes you no one  
Can't decide whether to give up with pride  
Or to suffer and try to survive

How many people have to die before you leave us all  
alone

You, speaker of the broken  
Listen closely cause i'll just say this once

Everyone dies!

You fear me  
And that's the way it's supposed to be  
You you can't escape death  
You're nothing to me  
One in a billion  
You don't scare me

I've been sent to see you bleed  
And rob you all of dignity  
I have seen so many dead  
That I have lost my mind  
Lost my mind  
Lost my mind
