I changed the locks because of you
And I don't think it's gonna stop
There are still things that I can improve
And I wanna keep up with you

Cause you make everything so bright
Except the distance of the ocean
And I guess that we're doing all right
But right now time is slow motion
Cause I'm just a little kid on my own
And I don't wanna be,
I don't wanna be alone

Tell me if there's anything that I should say
To make you feel a little better
Tell me if I'm right when I'm counting days
To make you feel a little better
Did you see the sky is full of planes
Full of people getting here now
Did I tell you that I wouldn't stay
If you were never getting here

Cause I'm just a little kid on my own
And I don't wanna be,
I don't wanna be alone
And all those other kids
On their own
They seem to be so independent
And so grown
