Flowing down the river.
Going with the stream.
Waiting for someone to catch me.

Swimming with the fishes
Down under the ground.
Sinking down, To the Blue

You abounded me here, my love
But I like it here, my love

I feel it all around me
It wispers under ground.
But somethings are not ment to be found.

Flowing down the river,
Going with the stream,
Withing for someone to catch me.

You abounded me here. My love
But I like it here, my love
You abounded me here. My love
But I like it here, my love

You abounded me here, my love
But I like it here, my love

Wispers from the waters,
I can hear it song
