"Life Moves On"

When I was little the clock stood still
I used to think I had so much time to kill
Suspended in a different place
Â'Til reality smacked me in the face
We don't have forever
The moment's now or never
Life moves on and days fly by
Gotta live it up while the sun still shines
Take my hand lets run away just you and I
2 young hearts on a one way track
Love is in a hurry, don't look back
Cuz life moves on, life moves on
Let's hit the road in your daddy's Ford
Drive all night, wake up on the shore
I've got a long bucket list
Right on top is your sweet, tender kiss
Better cease the day
Before it slips away
Life moves on and days fly by
Gotta live it up while the sun still shines
Take my hand lets run away just you and I
Make the most of it
