Verse

Eeny, meeny, miny, moe, dis a when I pick up the mic,
Now is my time, to start da show -
As the rhymes begin to flow,
& the people what to know -
Which way I'm gonna go -
& what am I, gonna come up with next to top this?,
You'll find out -
When ya ready for ya next fix
If you want more -
You better come up to me quick

Chorus

[Finally when it arrive it arrive big
Reggae, funk, hip-hop & soul, what a hybrid
Finally when it arrive -
It arrive strong
But never did I, expect to be a big hit] x2
Never did I, expect to be a big hit

Verse

Twinkle, twinkle little star -
Did ya really know I would take it this far?
And when ya saw it coming -
You knew it would be hard?
When me can't sleep, me get up & makes beats -
When the beats get tired, me then drift back to sleep
Give life to da music I conceive
Spawn from da pores, thru my skin it then breathes -
You propose, I suppose, from tunes I compose
You chose me on da strength of my prose -
Who knows, where it's gonna go from here?
To-ing & fro-ing back & forth, baby yeah
