**\*Verse\***

Outer space, you can find me there (yea)  
You can find me where ever, it's whatever  
Shit, just make a wish and I'll be there,  
Anything can happen, it's all possible when flying  
high,  
Bling don't mean a thing, babygirl you make my  
diamond shine,  
So they see me, watch me like a TV  
Wanna keep me like a DVD  
(DJ) Play my CD please,  
We got what the World needs to hear, take a listen,  
Yea I treat them all the same, you ain't gotta say  
you're different,  
If you wanna see, I can take you there...  
Telling me that you've never ever been before,  
Wannabes, they're tryna make you share...  
Tell them they could never ever get it in like Fleaux,  
In I go, in again so in I go  
Against the grain, make it rain, make it pour, major  
pain,  
In like so, in again so in I go  
Against the grain, make it rain, make it pour, Major  
Payne,

**\*Bridge\* / \*Chorus\***

Baby you don't need no makeup, it's cool with me,  
Evidently, this how God wanted you to be,
