Girl you know I'll walk a thousand miles

If I could just see you, tonight

Baddest lil' thing in the club, thing in the club,

Shawty what's up, ask your girlfriend if she's drinking
or what,

And what about you, what you put in your cup

She said belvedere, I said baby I don't think you'll
make it

Out of here, maybe I should steer

Don't worry baby ima pioneer, had to walk

A thousand miles but I'm finally here.

They say that gin will make you sin, girl (girl girl)

And if you get on that Hennessy girl (g-girl)

You gon' have to back it up, back it up, back it up (up)

You gon' back it up (up)

Baby bend it over clap it up, smack it up,

Back it up, back it up (up)

You gon' back it up

Round of a --Round of Applause Clap it up like

(Clapping)

Go ahead and clap it up like

(Clapping)

(Ahhh)

Girl I like the way you dress so fitted,

Thinking to myself like damn she could get it,

The way you move it up and down shake it round and round

I'm hypnotized girl you got me dizzy.

Tell the bartender give me one more round

One more shot it's about to go down

All I wanna know, could you make it hit the floor,

Bend over and touch your toes and slow it down like

They say that gin will make you sin, girl (girl girl)

And if you get on that Hennessy girl (g-girl)

You gon' have to back it up, back it up, back it up (up)

You gon' back it up (up)

Baby bend it over clap it up, smack it up,

Back it up, back it up (up)

You gon' back it up

Round of a --Round of Applause Clap it up like

(Clapping)

Go ahead clap it up like

(Clapping)

(Ahhh)

Standing ovation girl I want more, do it all again let me get an encore,

Clap to the beat, ima grab the mic,

Leave it up to me, you'll be clapping all night

Standing ovation girl I want more, if you do it right ima
bring you on tour

Give me the ok, bottles of Ros  
