HOOK times 2

89, I wrote; my LYRICS ain't no joke
And I keep them bars, so please don't get smoked
You started playin with them bars, and messed around
and got smoked
You started sleepin on the kid and messed around and
got woke

Verse 1

Why yall actin like rip van winkle, sleepin on me this
long
If you don't conclude your narcolepsy, you get smoked
like a bong
And the remnants of my past are present tense so I'm
more watchful of them
Been punchin lines so long, I stopped even tryin to
block all of them
In the beginning god created heaven, and earth, then
me
These girls made from adams rib but I'm made from
bark on a tree
Might as well be, ask me why, because money stays on
my mind
Crossin the line, sane and insane, on my xbox
controller, planking the game
I'm on a sabbatical, to erase every chap-a-ter
Of my past but that's impossible
Spit so much, I need throat losanges
I'm aware of my subconscious daily, so I never really
dream
I project into the multiverse, objects are closer than
what they seem

VERSE 2

No american idol so please don't worship me
I'm right below the fertile crescent, that's why israel

notice me

High like an angel, first thing that comes to mind is
israfael

Loud got my ears ringing, well baby, you can ring mmy
bell

I was so close to eing an illumanati pawn

We hungry, so our mouths are open like a big yawn

You can't sell out and sign yourself over to a liar

What's a man to profit if he calls the opponent sire

I can feel you through the wire, and I'm not chaka khan

King, you can king me, no checkers but genghis khan

My 3rd eye revived and I felt close to being post
partum

Body marked up like the subway in harlem, callem

Kaleidoscope, because now ppl around me are

showing their true colors

I ate all of the rappers up so, impacted wisdom teeth,
sawed of molars

Lyrics hard, no apartment, my bad, I am complex

If you take shots at me, I got a full body protective vest,
