Dark brown eyes and the way that he dressed,
Didn't see it coming now I've made such a mess
If I could I would go back right now
And change everything
When we first touched I knew something would start
Never thought I'd be the one breaking a heart
If I could I would go back right now

I never thought I'd fall for you
Boy what's a girl to do
This crush has caught me in a lie
Cause I

Don't like boys with girlfriends, boys with girlfriends
And hidden agenda's
My love life's complicated I'm so frustrated
I'm falling again and
It's not my fault, I just have to know
Do you think about me when you're all alone
Don't like boys with girl friends, boy with girlfriends
But I like you- op
Whop Whop Ooo Whoa doo op whop whop ooo whoa
doo op whop whop ooo whoa

Tired of whisperin' every night on the phone
Sneakin' around goin' where nobody knows
If I could I would go back right now

I never thought I'd fall for you
Boy what's a girl to do
This crush has caught me in a lie
Cause I

Don't like boys with girlfriends, boys with girlfriends
And hidden agenda's
My love life's complicated I'm so frustrated
I'm falling again and
It's not my fault, I just have to know
Do you think about me when you're all alone
Don't like boys with girl friends, boy with girlfriends
But I like you- op

Whop Whop Ooo Whoa doo op whop whop ooo whoa

I never meant to hurt nobody, body
I can't help how I feel I'm sorry, sorry
And every little inch of my body, body
Is tellin me to run but I'm fallin, fallin
I know that it's wrong but I want it, want it
I want you
I Don't like boys with girlfriends, boys with girlfriends
And hidden agenda's
My love life's complicated I'm so frustrated
I'm falling again

I Don't like boys with girlfriends, boys with girlfriends
And hidden agenda's
My love life's complicated I'm so frustrated
I'm falling again and
It's not my fault, I just have to know
Do you think about me when you're all alone
Don't like boys with girl friends, boy with girlfriends
But I like you-
I like you
I never meant to hurt nobody, body
I can't help how I feel I'm sorry, sorry
And every little inch of my body, body
Is tellin me to run but I'm fallin, fallin
I know that it's wrong but I want it, want it
I want you
I Don't Like Boys with Girlfriends
