Birds

Verse 1

Never underestimate the power of the real
Especially when it comes to love
Certain matters of the heart can be the matters on the
start
True love has no conscience when it's felt from the
start
I've been a victim of the war lost and won
Hidden connections are stronger than the obvious ones
Do you agree? When it comes to you and me?
Waiting on you to reply you reply can't wait to meet
I heard that life without love is like a year with no
summer
And a heart with no beat is like a band with no
drummer
Bifocal kid I'm just looking for my come up/how could I
forget you, your in the crowd with ya 1's up
Yea...
After the show you run up
Then you shoot me yo number
Lord knows that I didn't have time to talk right then and
there
But imma text when my days clear

Chorus

You got me high in the sky
Right where I wanna be
You got me lifted
Right where I wanna be
Like a bird in the sky
Girl yo love got me high

Verse 2

I know it's been a while, since I last rang yo phone
But I been on the road doing shows getting green you
know how it goes
I'm starting to anticipate yo next inbox bumping pacs
temptation and girl I feel the gridlock

Ain't no games tho I miss yo face it's rough being in
two different states
I know it's late but can U get on Skype anyway just
wanted to see yo face before I lay
Back into a dream worth dreaming
Divided by my show in may
It's in yo city so I'll hit u with the time and place
Long distance can't manage wanna paint a picture of
my love in hopes that you'll have it one day

Chorus

You got me high in the sky
Right where I wanna be
You got me lifted
Right where I wanna be
Like a bird in the sky
Girl yo love got me high
