Your teachings weigh me down I can relate
And lately IÂ'm convinced
Pleas me take control IÂ'm in your hands
Arriving to my pain

Bleeding sacred sounds alleviate
All my bodyÂ's strain
Creep my way around a life of hate
Maybe IÂ'm too late

Time brings us down
To the ground
But all I know
Is safe and sound
Lost or found it's all the same

And all the seas
Roll around
Turn the people
Upside down
See confusion tear away

Sooth me serenade the night away
Just so I can feel
Save me keep a place between your hands
YouÂ're all I ever had

Time brings us down
To the ground
But all I know
Is safe and sound
Lost or found it's all the same

And all the seas
Roll around
Turn the people
Upside down
See confusion tear away
