Bend, Bend at your knees
Bend so it breaks
into a world we lost before
don't rediscover the soul
know, know that your old
know how to act
act so infearred
don't delay, I always wanted
to know

She found another lover
she found another friend
strange how reactions
get lost in the end

once, once in awhile
maybe you'll smile
maybe you'll show who, who you are
you feed the fire, that burns
rise, don't try to spin,
cause its falling down
into a framed crowd
like before, its fire
it burns

just grow old
she found another lover
she found another friend
strange how reaction
get lost in the end

Don't take jesus
he's courageous
like the Lion
or the faceless
