It's kind of sad really  
Guess I'm the sort who'll linger  
When the credits roll  
I still can't leave a picture  
The picture I hold  
In my heart

It makes me mad really  
Wish I could blame a twister  
Or a hurricane,  
Or my pesky sister  
Wish I could blame away this feeling  
In my heart

There's reasons left to fight  
There's you to kiss good night  
Hold on?  
Hold on tight

It makes me mad really  
Wish I could blame a twister  
Or a hurricane,  
Or my pesky sister  
Wish I could blame away this feeling  
In my heart
