Summer,  
It's been three years since i last saw  
That loneyly smile  
Bound to be a thousand more  
'till i can find  
A face i loved as much as yours  
Mi hermosa

Never  
Would have thought you'd catch my eye  
Across the room  
Broken english, a goodbye  
That came too soon  
Who needs words when you reply  
Con su cuerpo?

I've been stuck  
On your foreign eyes  
They have struck for better boy  
We put your lives on our shoulders  
But these arms are too weak to hold us

Dreaming  
'bout some drunken melody  
You sung before  
Verses beautiful and strange  
I love that song  
I am strong beneath the fold  
Of all that flies

Haven't found all that i'm looking for  
Lost your ghost somewhere in samana  
I run my fingers across windows to trace  
All the outlines that make up your face  
Haven't found all that i'm looking for  
Lost your ghost somewhere in samana  
Try and try there's no use to pretend,  
All i want is to see you again

Sing into the moonlight  
Who could ask for more?
