Iâ€™m already in the saddle  
Sitting on goodbye  
Letting go of hanging on  
Iâ€™m leaving you behind  
You can keep this castle  
Where youâ€™ve crowed yourself the king  
Go ahead and do it no, it doesnâ€™t mean a thing

(Chorus)

You can cry me a river  
Enough tears to reach the sea  
They can flow on forever  
Theyâ€™re almost moving me  
Let â€™em fall, itâ€™s too late  
You can cry me a river  
And Iâ€™ll just sail away

You made every kind of promise  
Except the kind you keep  
And the only time you told the truth  
Was when you were asleep  
Iâ€™ve seen this act of yours  
From the beginning to the end  
I fell for it before but I wonâ€™t fall for it again

(Repeat chorus)
