Both hands back on the wheel  
It's been a while  
Since I could really feel  
A sense of control and I  
Took the wrong way  
A long way from where I am now  
I'm not there yet  
But I'm learning about how

(Chorus)

Life goes by  
At blurry blinding lightning speed I've  
Spent so much time  
Worryin' 'bout what's all around me  
I'll steer my life between these two lanes  
Off the brakes just drive straight  
Following these  
Headlights on the highway

No I will not look back  
On these miles behind me  
I will not be held down  
By the chains that bind me  
Keep rollin' goin'  
With the choices I've made  
Won't let fear slow me down  
Or get in my way... cause
