The Star

Look At me now
I'm the loneliest guy in the world
People say he's a star
And he's sure to go far ain't he pretty

Look At me now
Do they know for the love of that girl
I would give all I have
For the moment of love
Saying

Here comes the star
He's the idol of all the world
Step aside
Here comes the star
What he give'th that girl would come
To share his loneliness
MMMM

There was a time
We would wonder down loves avenue
Shearing moments together
Should last forever
Then came a time
Saw my name up in lights
And you knew there'd be no time together
Now your still gone so they'd say

Here comes the star
He's the idol of all the world
Step aside
Here comes the star
What he give'th that girl would come
To share his loneliness
MMMM

Now the stage is bare
Knowing your not there
I'd give it all away

Just to hear you say
I love you

Here comes the star
He's the idol of all the world
Step aside
Here comes the star
What he give'th that girl would come
Looketh there
Here comes the star
He's the idol of all the world
Here comes the star
What he give'th that girl would come
Here comes the star
He's the idol of all the world
Here comes the star
What he giveth that girl would come
