Come and breathe your peace in me
Let it fall
Meet me, meet me
Meet with me

Here I am desperate for you to meet me here
Here I stand reaching out for you to meet me here
Come and breathe your peace in me
As I fall down on my knees
Lord I know that as I wait

You will draw near
Oh lord meet me here

Never far away
Ever close to me
Your word is always near
In my heart you will always be

I fall down on my knees
I am waiting
I'm ready lord
Fall on me
Let your peace flow in me
