Last check, they want to know my law  
I am like, like the king of kings  
Glory again with my lies  
My voice raises in the seventh sky  
On the earth, each wicked man win  
The force, the soldiers and war  
They got a chance with the iron cross  
I lead the fools with my lies

Death to old boys, get a gun and bring the law

Everybody's got guns and that's fine  
And they're all going my way  
Everybody shoot down, that's alright  
Soon they 'll call me god  
Everybody's got guns and that's fine  
Now they scream my name  
Everybody shoot down, that's alright  
Soon they'll call me god

You drive me wild 'n drive me crazy in the world of  
sins  
Follow the wind, you'll get the world of thrill  
Let me put my faith in your straight mind  
There will be blood, but not mine  
Shut up children, I'm here  
Killers, the queen and me  
Turn on the radio  
Please gimme the last kills

Death to old boys, get a gun and bring the law

Everybody's got guns and that's fine  
And they're all going my way  
Everybody shoot down, that's alright  
Soon they'll call me god  
Everybody's got guns and that's fine  
Now they scream my name  
Everybody shoot down, that's alright  
Soon they'll call me god

Master of fight, mighty as a god  
I see their craze, big bullets rule the mess

Everybody's got guns and that's fine  
Now they scream my name  
Everybody shoot down, that's alright  
Soon they'll call me god  
Everybody's got guns and that's fine  
And they're all going my way  
Everybody shoot down, that's alright  
Soon they'll call me god  
Everybody's got guns and that's fine  
Now they scream my name  
Everybody shoot down, that's alright  
Soon they'll call me god [x3]
