Yo, my name is Sophia grace
And if you're listening to the radio right now
Get your tutus on
Girls just gotta have (x3) fun, fun
Girls just gotta have fun

Verse 1:

Hey girls, we got it going on green light
Want to get to the mall, they got them jeans I like
And I see some cute kicks I wanna wear tonight
I got my glam on chick, oh yeah
EO, EO, EO
Back up to the crib we go
We so stupid fresh, it's something like a fashion show
We're going off like a bomb
Everybody knows it's on, somebody ring the alarm,
yeah

Doesn't matter where we're gonna be at
Cause the parties gonna follow me here
So mister DJ, let the music play
We're gonna have a good ti-i-ime

Chorus:

Girls just gotta have (x3) fun, fun
Girls just gotta have fun
Girls just gotta have (x3) fun, fun
Everywhere we go you already know that
Girls just gotta have fun

Verse 2:

Hey yo
It's time to get it out of here
Hope your breaking that girl, cause girls are fearless
here
Hands in the air, put them where you wanna hear
Time to rock real hard, oh yeah
Oh boy, Oh boy
I'm dancing with my girls
Please don't get your feelings hurt cause you might
get your turn

We don't care just don't win us
Tonight we don't care
We're gonna do it up

Doesn't matter where we're gonna be at
Cause the parties gonna follow me here
So mister DJ, let the music play
We're gonna have a good ti-i-me

Chorus:

Girls just gotta have (x3) fun, fun
Girls just gotta have fun
Girls just gotta have (x3) fun, fun
Everywhere we go you already know that
Girls just gotta have fun

Bridge:

I-I-I'm, I'm having a party, yo
Your all invited
Put your pink tutus on, it's so exciting
It's the princess swagger, moves like jagger
Haters gonna hate
And their going to chit, chit chatter
I'm Sophia Grace, I got that super base
And I've been flying in a rocket in and out of space
Nikki is my princess, and Ellen is my qween
Put them all together that's the Hollywood dream
I'm sipping on the milk shake
Strawberries and cream
Rosie got my back and that's my princess team
We're flying to the top
We're never gonna stop
The sky is the limit, and this princess rocks, wooh

Chorus:

Girls just gotta have (x3) fun, fun
Girls just gotta have fun
Girls just gotta have (x3) fun, fun
Everywhere we go you already know that
Girls just gotta have fun
