Love is
Love is what you make it
You can't make or break it
So don't you run
Run and hide
I said love is
Love is what you make it
And if you make it with me
We'll make it all right
Hey hey hey

Lover
Don't you run for cover
Don't run to your mother
No reason to
Every time

I said love is
Love is what you make it
And if you make it with me
We'll make it all right

Now you've been told
Your blood runs cold
So you've been holding back
But every word
That you have heard
Tends to push you back
But I remember what my mama told me a long time
ago
She said you'll reap what you sow
Hey hey hey

Love is
Come on love is what you make it
You can't make or break it
So don't you run
Run and hide
I said love is
Yeah love is what you make it
And if you make it with me

We'll make it all right

We can't be
On a way street
I'd have to work it out
'Cause it takes two
To pull it through
And that's what love's about
And I remember what my said to me a long time ago
She said son you've got to reap just what you sow
Hey hey hey

Love is yeah
Love is what you make it
You can't make or break it
So don't you run
Run and hide because
Love is
Love is what you make it
Lord and if you make it with me
We'll make it all right
Hey hey hey
Love is
Love is what you make it
You can't make or break it
So don't you run
Run and hide because
Love is
Love is what you make it
And if you make it with me
We'll make it all right
Hey hey hey
Love is
Love is what you make it
You can't make or break it
So don't you run
Run and hide
I said love is
Love is what you make it
