The air tonight is hard to breath  
The love is cold and out of reach  
Another time another place maybe

Your love you know it humbles me  
But now it's fractured  
Never more than broken words  
I never understood

I take every feeling  
I get when you're near me  
And throw them away

She said the perfect things  
Her eyes sank into me  
The drug I felt I needed  
Was you and now I hate it x2

All the lies other told you  
What to think of me  
Was it a mirror image  
Fractured underneath

I take all the feelings  
That she'd when you're near me  
And throw them away

She said the perfect things  
Her eyes sank into me  
The drug I felt I needed  
Was you and now I hate it x2

She said the perfect things  
Her eyes sank into me  
The drug I felt I needed  
Was you and now I hate it

By the time I'm up and breathing  
I get the feeling I'm going down  
Cycle set to sick then your eyes sink in  
And bring me to life again
