I open my eyes to skylines
From my deep and peaceful slumber
This is better then knowing where we are
On an open road,
So far from home I
Get this feeling were not in kansas anymore

We get down in new towns everyday
The days are long
But the nights are all the same
We roam this brick road from show to show
We've got somewhere to go but the emrald city's not to
far
It's not too far

There's no place like home,
So click your heels three times
And say it now
There's no place like home
So click your heel three times

I open my eyes to suprise
Four familiar smiling faces
It's safe to say,
As if I never left
All my new friends
From the places that I've been
Their all closer then you think

Can't you hear me knocking x4

There's no place like home,
So click your heels three times
And say it now
There's no place like home
So click your heel three times
And say it now

We set the pace in new towns everyday
We get up to get down we get down to get up x2

Come on come on don't stop

Just shake it shake it
Come on come on don't stop
I'll get you my pretty
Come on Come on don't stop
Just shake it shake it
Come on come on don't stop
Don't stop

Click your heels three times and say there's
No place like home
There's no place like home x2
