I saw a lady and she was naked  
I saw a lady she had no clothes on  
Seen her in the corridor  
Lying on her back on the floor  
Why she want to pick on me?  
She was -- naked

I saw a lady and she was naked  
I saw a lady she had no clothes on  
I had a good look through the crack  
Footmarks up her back  
How did they get there?  
She was naked -- naked

I saw a lady and she was naked  
I saw a lady she had no clothes on  
Now she's looking at me  
What's that rope I see?  
I don't like the look of those boots  
She was naked -- naked

I don't wanna seem crude but she was nude  
Nude -- nude -- nude --nude
