Adam Harvey
"Once upon a long gone time"

Once upon a long gone time
When the moon was in the mood to shine
And all the stars above came out to watch us fall in love
I remember you and me
Dancing to a timeless melody
Back when you were mine
Once upon a long long time

Our love was like a fairytale
Without a happy ending
And I'd give anything to go
Back to where it all began

Once upon a long gone time
When the moon was in the mood to shine
And all the stars above came out to watch us fall in love
I remember you and me
Dancing to a timeless melody
Back when you were mine
Once upon a long long time

I love among the memories
Right up to what might have been
When it hurts too much to turn the page
I start the story again

Once upon a long gone time
When the moon was in the mood to shine
And all the stars above came out to watch us fall in love
I remember you and me
Dancing to a timeless melody
Back when you were mine
Once upon a long long time
