Ascites, oedema, appendix, anaemia;  
Embolus, embryo, eczema, cheyne-stokes;  
Empathy, apathy, atopy, allergy, autism, autopsy,  
arthroscopes.

Infarction, infection, induction, injection;  
Inspection, palpation, phlebotomy, mumps;  
Bicuspid, bipolar, bigeminy, biceps, teratogenic,  
testicular lumps.

You must say things like dysdiadakokinesia;  
You can  
Otherwise they  
So you use Latin words instead;  
So the buggers will never discover the meaning behind  
all the stuff that you said.

Neurosis, necrosis, osmosis, psychosis;  
Intestinal, inguinal, cystic fibrosis;  
Lordosis, kyphosis, PE, halitosis;  
And leptospirosis;  
Aortic stenosis.

Dyspepsia, dyslexia, dementia, depression;  
Paralysis, parasite, pleura, pellagra;  
Angina, andrology, antidote, antigen;  
Ventricle, vertigo, vomit, Viagra.

You must say things like micturate, defecate,  
intercourse;  
You can  
Although they  
Although it  
You have to use the Latin name.  
Like haematuria and steatorrhea;  
Cachexic and splenic;  
Iatrogenic.

But on the other hand if they understand the phrases  
that you say;  
Just confuse and bemuse by using eponymous names;

Like Hunters and Ehlers-Danlos, Hurlers and Turners  
and Brown-Sequard.

And if they understand that, acronyms are twice as  
hard;

You need a BCG, ECG, ECT, EEG, PET, CBT, HRT

Haematocrit, Haemorrhage, Haemorrhoids, Heparin;  
Hand, Foot and Mouth Disease, Gross Heamatemesis;  
Maxilla, Axilla;  
Macular, Papular;  
Spatula, Scapula;  
Spermatogenesis.

Avoid saying nutcase and mental and lunatic, fruitcake  
and screwy and mad;  
Terms like bipolar and frank schizophrenia tend not to  
go down so bad.

So these are the words that are used;  
But surgeons of course are excused;  
We can
