Break out all the mechanical  
Step right up to the freaky intangible  
Hands uncuffed, take the leash off this animal  
If it's getting hyphy hit me with a night-c (yeah)  
Slip right into your stripper shoes  
Roll the dice, I got snake eyes and deja vu  
Poppin off and I'm bouncing with ballyhoo  
Tune in (tune in)  
Turn on (turn on)  
Drop out

Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me  
Going down the rabbit hole  
Even hoes and gigolos  
Come on, follow  
Come on and follow me

Quick slow high or low  
You're never gonna know for sure  
See in stereo  
Down the rabbit hole

Catnip and honey, teatime and all over town  
(all over town, all over town)  
houses of candy, build 'em up and then burn 'em down  
(burn em down, just burn em down)  
it melts in your face and not in your armour  
It starts in the bass and it ends in the crystal ball

Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me

Going down the rabbit hole  
Even hoes and gigolos  
Come on, follow  
Come on and follow me

Disco rodeo  
In my kaleidoscope  
Cleopatra knows  
What's down the rabbit hole

Going down the rabbit hole  
Get away from all we know  
Come on, follow  
Come on and follow me  
Going down the rabbit hole  
Even hoes and gigolos  
Come on, follow  
Come on and follow me

Quick slow high or low  
You're never gonna know for sure  
See in stereo  
Down the rabbit hole

(Who are you?)  
(Who are you?)  
(Who are you?)  
Who, Who, who are you?  
(Who are you?)  
Who, Who, who, who are you?  
(Who are you?)  
(Who are you?)
