Some
High Up
Shouting
Why can't everybody look deep
Inside
For hope
That'll make the world up open up
They don't
Want us
Then we really don't want them
They can
Hate us
But we won't let that bring us down
It won't bring us down
It won't bring us down
Run away, we will run out all day
Run away, Taking an holiday
Run away, lets you and me parade
Run away, then we can have our save

Our lives
Matter
So much more than what's in their minds
I would
Rather
Disappear then live in fear
If they don't
Want us
Then we really don't want them
They can
Hate us
But we won't let that bring us down
It won't bring us down
It won't bring us down
Run away, we will run out all day
Run away, Taking an holiday
Run away, lets you and me parade
Run away, then we can have our save

Just run away
Ohh ohhh
Just run away

Ohh ohhh
Ohh ohhh

It won't bring us down
It won't bring us down
Down to the ground
It won't bring us down
It won't bring us down

Run away, we will run out all day (It won't bring us
down)
Run away, Taking an holiday (It won't bring us down)
Run away, lets you and me parade (It won't bring us
down)
Run away, then we can have our save (It won't bring us
down)

Run away, we will run out all day
Run away, Taking an holiday (It won't bring us down)
Run away, lets you and me parade
Run away, then we can have our save (It won't bring us
down)

Run away
Just run away
Run away
(It won't bring us down)
Run away
Just run away
Run away
Ohh ohhh
Then we can have our save
(It won't bring us down)
Just run away
Ohh ohhh
(It won't bring us down)
Just run away
Ohh ohhh
(It won't bring us down)
