Did you know we've been going no where?  
Did you know it would be like this?  
Did you know I thought I could fake it?  
Did you think this would end up good?  
On who will you depend?  
Now you've called the end  
Did you know we've gone all this time without even  
Talking about what we needed and wanted and loved?

Did you know that I thought this was some bad joke and  
Did you know I want out?  
Did you know we rode all this time  
On this train, on these tracks, never looking back?  
Did you know we killed half a year?  
Did you see the end of this road?  
Did you know I wanted out?
