There's a big empty space
In this tiny bed
A stash of love notes hidden
And waiting to be read
My busy city waits
Curling in your hair
The unwashed shirt you wore
My teddy bear
Any pain from our past
Just a seasonal trend
Such a fad fades into
Our love in the end
Again and again I dream
With you by my side I'd never slept so sound
Let's do it again
Whispering "I love you" in your ear my life I've found
There's a look from your eyes
For which I swear I was born
Desperately speeding towards the rockies
On this unicorn
I believed and I longed to drink
From this cup

Quenched my heart, so parched,
And turned my life right-side-up
Would you come
And never leave?
So that we
Can retreat
And just bask
In the fact
That you make
Me complete?
Again and again I kiss you
The world around us never stood a chance
I'm burning within
On fire alive and crying out for this romance
All pain from the past
Just a seasonal trend
Such a fad fades into
Our love in the end
Again and again I dream

With you by my side I'd never slept so sound
Let's do it again
Whispering "I love you" in your ear my life I've found
