Adam Rickitt - I Breathe Again
=====

Uh uh uh uh uh uh uh
I breathe again
I breathe again
I breathe again

When you're not here minutes feel like days
And I wait to hold you in my arms
Fever breaks, my body aches
But Im strong and I'll hold on

Open the door feel the need in me
Come and take, come and take this pain away
Babe your love is like oxygen through my veins
And I need it

Bridge:

I feel my body shake and my heart about to fail
A panic attack and I can't exhale
But baby all I needs your lovin?medication

Chorus:

you're the life I believe you're the air that I need
When you touch me I breathe again
you're the life I believe the air that I need
When you touch me I breathe again
When you hold me (I breathe again)
When you're near me (I breathe again)
When you touch me (I breathe again)
When you hold me (I breathe again)
When you're near me (I breathe again)
When you touch me (I breathe again)

I breath again (again, again, again)
Uh uh uh uh

I want to wake lying next to you
Where Im safe and far away from harm

Nothing takes my breath away
Like the thought of you gone

I feel your body burn
And we move in time
You've given me life
With your melting mind
And baby I can feel you in my soul, ah

Chorus

I breath again (again, again, again)
Uh uh uh uh

Bridge

you're the life I believe you're the air that I need
When you touch me I breathe again
you're the life I believe the air that I need
When you touch me I breathe again, ooh
When you hold me (I breathe again)
When you're near me (I breathe again)
When you touch me (I breathe again)
But baby all I needs your lovin?medication
When you hold me (I breathe again)
When you're near me (I breathe again)
Baby I can feel you in my soul

you're the life I believe you're the air that I need
When you touch me I breathe again (breathe, breathe)
you're the life I believe the air that I need
When you touch me I breathe again, ooh
