Don't come out of your bunker  
It's your dungeon, and your hell  
Chasing the rainbow you searched all your life  
The cradle of time, no one to sanctify

Arabian nights, the oriental ways  
But still they shine on

[Chorus:]

Freedom's not found on the trail out of tears  
And no one should live as a slave  
You can not fight 'gainst your deepest of fears  
It's written by nature of man  
In the ocean of sand

Now you say you're Messiah,  
None can just were you dwell  
Searching the mountain, they seek underground  
Hate are forever and traitors must die

Arabian nights, nomad affairs  
True believers

[Chorus]
