Where are we heading? what have we done to come  
this far?  
Right now, speak up, I want to hear your voice  
I am not a silhouette of your imagination  
I'll never forget, this place is filled with regret  
Give me something, to hold this life together  
I know it's hard to say these words  
Maybe some day I'll be more than words to you  
But for now, I'll be waiting with loving arms  
I will, I will  
Scratch together, these broken pieces they don't fit  
right  
Your attempts to replenish are hopeless  
Reach the surface, open up your lungs and breathe me  
in  
Now I've become, more than a whisper to you  
Take my hand walk with me, I'll walk with you  
Now set your eye line high and speak to me  
Maybe some day I'll be more than words to you  
But for now, I'll be waiting with loving arms  
I will, I will  
I am power over wind and waves  
I am power over wind and waves  
The flood is coming so gather your air  
Give it to him before it's too late
