

Adelayda "Crowded Room"

Visit "[Crowded Room](#)" on MotoLyrics.com

Two heads on a pillow
sharing the night
there's nothing i can do or say now
nothing's gonna make this right
God knows I wanna hold you
until night turns into day
I could lean over and touch you
but your so far away

Chorus:

And I see you and me together
living in a crowded room for two
yeah I see you and me together

living in a crowded room for two

So tear down your walls now
you can let me in
you should know that i won't hurt you
'cause I am not like him

Repeat chorus

You can believe
You mean the world to me Yeahhhh
Well it's so easy
Letting gooooo Ohhhhhh

Repeat chorus
