She
She's a girl who believes in continuously tearing apart
Just for fun
All the passion
But she, she will burn like a witch
All nailed to the cross
But her smile will stay on
Like she knows that she deserves everything that she
gets
She deserves everything that she gets
She deserves everything that she gets

This is a tale of misturned evolution
This is a collection of emotional experience
This is the collapse of 2006
The Rose Will Decay
The Rose Will Decay
The Rose Will Decay!
