Have you never noticed
That we're dancing, dancing,
Dancing on the sun?
That's why we're moving so fast
It gets rather warm
Seasons come and go
But we keep dancing
Provocative
Oceans try to drown us
But they all burn away
And we never cease

I can tango like a Spanish don
Lightly do my feet trip
'cross the flames
And you are my love
You are my tormentor
Your hand presses mine
And they melt into one

Have you never noticed
That we're dancing, dancing,
Dancing on the sun?
That's why we're moving so fast
It gets rather warm
Seasons come and go
But we keep dancing
Provocative
Oceans try to drown us
But they all burn away
And we never cease

I've been to the center of the earth
I've been to the bottom of the sea
And then there was you
We met in Idaho
You slapped my face
And we took off from there

Have you never noticed
That we're dancing, dancing,

Dancing on the sun?
That's why we're moving so fast
It gets rather warm
Seasons come and go
But we keep dancing
Provocative
Oceans try to drown us
But they all burn away
And we never cease

Salamander
Salamander
I recall your breath in my ear
I can feel your arms around me
Stay there
Please come near, I said
Salamander
Salamander
I recall your breath in my ear
I can feel your arms around me
Stay there
Please come near, I said

Have you never noticed
That we're dancing, dancing,
Dancing on the sun?
That's why we're moving so fast
It gets rather warm
Seasons come and go
But we keep dancing
Provocative
Oceans try to drown us
But they all burn away
You know they all burn away
