Odin - the god of nocturnal storms  
ranged the sky with his horse  
deciding man's fate

When there was a battle on earth  
Odin sent his valkyries  
to mingle with the combatants and determine  
which warriors should fall

And they awarded - victory and glory  
to those combatants - who won their favour  
After the bloodbath - they returned to Valhalla  
announced to Odin - those who would join the troop

In the splendour of his holyness - he rarely appeared  
but in a disguise - he travelled the world  
creating warriors - so strong and glorious  
from ordinary men  
grew up so splendid heroes

Heroes in godly blaze

He knew the spells - which cured the illness  
magic formulas - which broke the chains  
Those which rendered - weapons so powerless  
dead could speak, waves could rise  
- by his magic spells
